

Three thousand Dollars in Cash, God Just Found

Albert Johnson Now Believed Murderer Who Robbed His Hapless Victims—Loot Discovered by Posse in Dead Man's Pack

Exclusive to Edmonton Bulletin

AKLAVIK, (By mail)—Thousands of dollars in cash, a poke of gold dust, some valuable jewels and a set of false teeth on a gold plate were found in the bullet-riddled pack behind which Albert Johnson met his end when the crazed Rat River trapper made his last stand against a posse on Eagle River on the old Yukon trail.

And police here believe—although not making any official admissions—that the man of mystery was a murderer, and that the cash, the jewels and the rest of the loot belong to some victim who was treacherously murdered in a lonely canyon by Johnson.

Most sinister of all the clues pointing the finger of guilt at the dead looter, was the gold-mounted teeth, given to him by their settings.

Johnson's own teeth were perfect—natural ones—and there is no earthly reason why he should have had false teeth in his possession. May be he thought that the gold teeth were a talisman, the identity of some obsession, to be found years from now in lonely canyon.

MONEY IN BIG BILLS

Members of the posse present when the madman met his end, saw the money being counted by the police officer for purposes of official record. It is said that some of the bills were of large denomination, and that the total amount is close on \$2,000.

The value of the loot, found in a buckskin pack, is not known. There is no doubt that the loot was hidden by Johnson, and that he was not a simple-minded man.

OUTLAW RUN DOWN

Everyone here has seen the body of the slain outlaw. It was a mere bag of bones. And not one of the men who have seen it, believe that the victim was Albert Johnson. They believe that the victim was a man who had been killed by Johnson, and that Johnson was the man who had been killed by Johnson.

Cost to Administer Act Taken Out To Rise \$1,374,000

Including a cost of \$1 million for the cost of \$2 to be added to the amount payable for all taxpayers and provided for taxation based on 1931 income, a memorandum of the projected provincial income tax was tabled in the legislature on Wednesday by Hon. C. G. Reid, provincial treasurer and minister of lands and mines.

As the bill is estimated to cost \$1,374,000, the government, by this measure, hopes to raise this year \$1,374,000.

In general outline and principle the proposed tax will adhere to the scheme of the Dominion measure. As applied to individuals, the percentage rates are as follows, bearing in mind that single persons are exempt from additional \$400 for each dependent:

MINIMUM RATE

One per cent on the taxable income up to \$2,000; two per cent on taxable income from \$2,000 to \$4,000; three per cent on taxable income over \$4,000.

From this point on an additional \$400 for each dependent.

Army of Reporters and Photographers Requested to Leave Premises—Way Paved for Baby's Return

BOSTON, Mass., March 3.—The kidnapped baby of Charles A. Lindbergh, according to a letter mailed by a woman in Boston today addressed to the famous aviator, is held in a house in a small Massachusetts town.

HOPWELL, N.J., March 3.—The Lindbergh baby was still missing today.

But for miles on either side of the Lindbergh estate the road was cleared to make way for the return of the kidnapper, reported to be demanding \$500,000 ransom, which Col. Charles A. Lindbergh is ready to pay.

Last night the army of reporters and photographers assembled at the Lindbergh estate was requested to leave the estate for fear that if the kidnapper should bring the baby back he would be frightened at sight of the crowd and fail to stop.

Today an even stricter order was issued and the police declared the road was cleared to make way for the return of the kidnapper, reported to be demanding \$500,000 ransom, which Col. Charles A. Lindbergh is ready to pay.

HAS TIE FOR SECOND SLOT IN BIG MEET

Defeat New Brunswick in Great 13-Enders on Wednesday

TORONTO, March 22—Hockey fans in Ontario risk remaining in the running for championship honors in the Macdonald Memorial Cup tournament by defeating New Brunswick 12 to 11 in a spectacular extra round game on Thursday night.

This was the first 12-man game since the Olympic team from the Atlantic won Manitoba, Ontario and New Brunswick for second place with a 10-1 victory over the Ners Scotia side last week.

New Brunswick's victory came with four wins and one loss against Ontario in the first round, sinking during the 9:30 o'clock draw Thursday morning. The Alberta team, which had been the most sensational of the 'upstart and the grand display of curling was threatened by the Ontario team.

TOUGH TO LOSE

The morning game was a tough one to lose and there were some good and bad plays by both sides. The Ontario four showed its great skills, getting a lay-up on the second end but the Albertans came back with a free on the next end. But the next free ended the morning rule was held somewhere in the middle of the second end and 11 in 5 against them. From that to the end of the game they fought back and were only two down going into the last end. They took time for a 150 to 100 thing up the top. Ontario ship put in a near second end with his last rock and then came

In the game against Quebec the Alberta boys were right on their game and had no trouble in winning.

FLYERS

Not since that memorable night when the Flyers' defenseless goalie, Andy Maloney, was shot in the back of the net by Ab Danks, has the team been so close to a game of the series for the Northern Alberta Junior Hockey championship at the Arena last night. Then came the game in the way of a long shot by Ab Danks from just outside the Flyers blue line, the puck glancing off Goalie Watson's big stick to find a nestling place in the back corner of the net. Andy Maloney's pass to Louie Trudel, five minutes later, brought victory to the locals by a 2-0 score.

WIN BY ONE-GOAL

Stars revved on a jenny that hit overtime to beat Regina, Cayne and the Western Canada League champions for the Klammer. Here I heard no much discussion of a bridge card. I was told about the city yesterday when the folks were talking over Jimmy Crawford's diagnosed last of Tuesday night, which was the battle for St. Peter's protesting the second game of the Alberta entry finals against the Bronx.

Dan's belief I met a single person yesterday who did not have something to say about that goal or the protest which developed out of it.

M. J. WOODARD, ANCHORAGE, 1917

the goal, should have been allowed to score that goal. I don't think it was fair. Usually there is some who says that this kind of goal was not so much as you hope, but I don't agree that it was a goal in this match.

ANDY MALONEY,
short left-liver of Baner Lancers, who was the outstanding man on the big arena rink last night as the local snowed out the first to see the game. The Alberta junior hockey crew and the rights to score the provincial final against Calgary, Jimenez. He played fine hockey throughout and was the center of the team's second goal.

COLORADO

It was not known at the time that just the decision of the Amateur Hockey Association would make the difference between a win and a loss. The team that had been playing in the first round of the playoffs, the Colorado Avalanche, had been defeated by the Colorado Rockies in the first round of the playoffs. The Colorado Avalanche had been defeated by the Colorado Rockies in the first round of the playoffs. The Colorado Avalanche had been defeated by the Colorado Rockies in the first round of the playoffs.

HAD THE "PUNCH"

However, Andy Maloney still performed well, throwing in the towel. Lanning figure on the winning shot. Maloney was the first to see the game. Maloney and the Colorado Avalanche were the first to see the game. Maloney and the Colorado Avalanche were the first to see the game. Maloney and the Colorado Avalanche were the first to see the game.

HEALTHY TONE FOR LIVESTOCK IN FEBRUARY

Sheep and Hog Receipts Are Greater Than In February, 1931

Edmonton Stock Yards, March 3.—Total receipts for the month of February, 1932, compared with 1,859 cattle, 31 calves, 12,349 hogs and 1,929 sheep. In comparison to February of last year this shows a decrease of some 278 cattle and 281 calves, and an increase of 4,419 hogs and 1,394 sheep.

Receipts during this past month were not so heavy as at first anticipated, and the quality of the offerings was not of the best. In fact, many of the finished and in-between kinds of cattle arriving for the bulk of the trade and market as a whole. This was particularly true during the first two weeks. Receipts in the last two weeks of the month were inclined to be better in their attitude and better in their quality, influenced possibly by the somewhat unobtainable quantities of the offerings. During this period animals found some difficulty in moving their offerings and prices were heavier a week later than in the first of the month. The latter half of the month, however, especially the last week, a considerable improvement was noticeable on the market. Buyers commenced to operate more freely were heavier in the bidding and easier in the grading. This was reflected in the fact that the market animals found no difficulty in the daily clearing up of all their offerings. During the last week of the month, sheep showed a stronger tone, and in fact, were about 25 cents higher as compared to the opening of the month. This is especially true of heavy-weight hunchers and particularly light ones.

STOCKS
The demand for stockers and feeders, especially the lighter kinds, was fairly brisk, particularly in the area of the heavy hunchers, but there were no satisfactory arrivals to meet the demand. Prices throughout the month were a fairly steady tone to firm level.

CATTLE
The cattle market showed strength throughout the month and under light receipts animals had no difficulty in finding a place for the offering.

HOGS
The hog market kept at a fairly steady level for the first two weeks, followed by a slight decline in the third week and a recovery in the fourth week. The market was fairly active, and prices were generally higher than in the first two weeks of the month.
